# CORPORATE SOCIAL RESPONSIBILITY.

## Our CSR Roadmap

We understand that when making decisions, we have to consider the effects of our actions on the environment and climate, on people and our community. We are also looking at our value-added chain here – from raw materials and products we use, to the travel behavior of our guests and how they use our services. To make our comprehensive responsibility obvious both internally and externally, we have reinforced our corporate social responsibility strategy with the CSR roadmap.

Our CSR roadmap contains binding short-, medium- and long-term goals in all the important sustainability areas of Deutsche Hospitality. Whether manager or apprentice – in our culture everyone contributes to success in their own way.
