Lago Maggiore Green Meeting

Zacchera Hotels and the Eco-sustainably system

Zacchera Hotels is part of

Lago Maggiore Green Meeting, the prime "sustainable" conference destination on the Italian and Swiss markets.

One of the favourite destinations of international clients, Lake Maggiore is ready to be considered a leader in the market of events and conferences with a low environmental impact in the Piedmontese provinces of Verbano Cusio Ossola and Novara, the Lombard province of Varese, and the Swiss part of the lake around Locarno.

Grand Hotel Bristol in Stresa Grand Hotel Dino, Hotel Simplon, Hotel Splendid, Residence Carl & Do in Baveno and the new Aquadventure Park: this is the total supply of the Zacchera Chain situated on Lake Maggiore (north Milan Area), surrounded by lush gardens with old century trees, that offers and guarantee the true Italian hospitality with a dedicated and unique service since hundred and fifty years

some of our Best Practices for "Green Meeting"

- Agreement to the European Community certification EMAS (Eco-Management and Audit Scheme) to evaluate and improve their environmental performance and provide information on their environmental management
- separate waste system: collect separated materials for the purpose of recycling
- Use of solar panels for swimming-pools heating
- Independent Autonomous System of heating and conditioning divided per hotel floors
- Choose suppliers with Ecolabel products
- Communicating primarily via email and web without paper waste
