

A photograph of the Fairmont Monte Carlo hotel. The image shows a multi-story building with a balcony in the foreground, featuring blue curtains and wooden railings. In the background, there are several tall palm trees and a large, ornate, white building with a green roof and multiple towers, likely the Casino de Monte-Carlo. The sky is clear and blue.

SUSTAINABILITY

We are proud to be part of the Planet 21 Program, created by ACCOR, to ensure concrete actions for a sustainable development of our hotels. The Fairmont Monte Carlo has acquired the BRONZE status and continues to progress towards more "GREEN" actions. Our Planet 21 manager within the hotel ensures that environmental objectives are respected and implemented. For example, our entire laundry service has been modernized to be less energy consuming, charging stations for electric vehicles exist and parking spaces are now offered to reward our customers driving 100% electric vehicles, our team of chefs use local, seasonal products and have made a tremendous effort to reduce food waste by 30%... this is just the beginning.
