## AMAZING STAFF

It's our staff that makes all the difference. Our coaches work with your guests to make them feel welcome and comfortable. We're here for you!

# TESTIMONIAL

“Just recently got back with the family from our regular two week stay at the Hard Rock Riviera Maya, south of Cancun. But this stay was different as they have opened the first international Woodward Skate and Trampoline facility right at the resort. Our entire family spent several hours learning how to use and then actually experiencing and playing on a variety of trampolines, performing gymnastic routines on a huge tumbling floor, and jumping from various heights into full-impact absorbing foam pits. The facility itself is huge, over 20,000 square feet. And in addition to the trampoline and gymnastics areas, has a variety of tracks and jump ramps for anything on wheels—from skateboards and in-line skates to bmx bikes. The jump ramps, allow for take-offs and safe landings into major foam pits. Like everything else, the ramps vary in degree of difficulty, with anyone being able to use them so long as they can demonstrate proficiency to the staff.

A large variety of virtually all of the equipment you could want to use is available for rent, and the facility’s staff, led by Woodward’s Shelby Snyder, are first and foremost, very safety conscious, but also incredibly friendly and eager to help users safely learn new skills.

The facility also has its own food service grill and expansive viewing and sitting areas that allow spectators to watch as much of the trampoline, track, ramp and jump action that they would like to.

Bottom line is that my family and I were all blown away by the facility and the experience. We ALL had an excellent time there and I’m pretty confident that everyone who tries it will, as well. Definitely an outstanding addition to the already terrific Hard Rock Riviera Maya. Enjoy!!!”
