

VILA GALÉ COLLECTION BRAGA

NORTH

Vila Galé Collection Braga is born from the rehabilitation of the former São Marcos hospital, a building of public interest, dating from 1508 and built where there used to be a hermitage devoted to São Marcos, a hostel and a Templar convent. Respecting the building's historical and architectural side, this hotel maintains the existing structure and recovers elements such as the original vaulted ceilings.

Devoted to the history of convents and the founding of Portugal, this unit integrates the Collection concept, distinguished by its quality service.
